THUMPSTAR - TSB 110CC

The new TSB 110cc is gearing up in style with all the looks of the bigger motocross bikes but designed for kids, beginner riders and we all know experienced adults also love riding this model also. TSB 110 has a seat height of 710mm and 4 speed semi automatic gearbox which is similar specifications to its competitors (TTR110, CRF110, KLX110, DRZ110), your little ones will fill all in laughter and smiles. Highlighted with special features including Chartreuse Plastics, Stripe Gripper Seat and AK-7 Alloy Rim this bike allows your teens to have fun and enjoy their new motorcycle. Although having a kick start but still it is very easy to start. So kick it over and surf the dirt away. (2016 TSK 110 is electric and kick start)
